

Zachary Hart

CONTACT INFORMATION	2109 Becket Drive Flower Mound, Texas 75028	zach@cs.h.rit.edu (972) 786-5794 github.com/zthart
---------------------	--	--

OBJECTIVE	Seeking a co-op in software engineering for the Spring/Summer of 2018.
-----------	--

EDUCATION	Rochester Institute of Technology - Rochester, NY • Major: B.S. Computer Science • Expected graduation: June 2020 (5-year program) • Relevant Coursework: Data Structures & Algorithms, Mechanics of Programming, Intro to Software Engineering, Concepts of Computer Systems, Concepts of Parallel and Distributed Systems	August 2015 - Present
-----------	---	-----------------------

TECHNICAL SKILLS	Languages Python, C, Java, MIPS Assembly Frameworks & Libraries Flask, Django, Requests Operating Systems Linux, Windows, macOS Sierra Technical Skills 6502 Assembly, General Digital Electronics, Hardware Prototyping, Home Automation
------------------	--

WORK EXPERIENCE	Syncurity Integrations Engineer	https://syncurity.net July 2017 - Present
-----------------	---	--

Collaborated with a remote team in a small and fast-paced startup environment to integrate third party APIs and services into our product using **python**. Gained experience in working with a team of engineers and security analysts both within the company and as clients, remote and on-site, to understand the needs of our users. Worked directly under the CSO and former CEO.

PROJECTS	CSH Lounge Automation Aggregates control of consumer devices such as A/V receivers, projectors, and lighting control and implements X10 Automation , HDMI-CEC , and serial communications to interface with the devices. The devices are exposed to web requests via Python/Flask application in order to allow control from any internet enabled device.	https://github.com/zthart/csh-automation
----------	--	---

Drink A collection of web-connected vending machines that allow users to vend items from any device connected to the internet. Worked on a diverse team to maintain, update, and discover new approaches to interface mechanical machines with modern hardware via the one-wire protocol, and a python server/client model.	https://github.com/zthart/drinkpi
---	---

Huffman Lite Written in C , Huffman Lite is a huffman-like encoding and compression algorithm. Utilizing a tree structure similar to a huffman tree, Huffman Lite can encode and decode both human readable files and binary files.	https://github.com/zthart/huffman-lite
--	---

CSH Compute Cluster Setup and Management of a small computing cluster created for members of the Computer Science House at RIT. Allows for users to submit jobs to be run and managed using SLURM Workload Manager .	https://github.com/zthart/csh-slurmguide
---	---

EXTRACURRICULAR	CSH (Computer Science House) House Improvements Director Drink Administrator Member	http://www.csh.rit.edu/ August 2016 - June 2017 March 2016 - Present August 2015 - Present
-----------------	---	---

Computer Science House, or CSH, is a group of technically-minded students at the Rochester Institute of Technology that all share a goal of learning and creating through collaboration. Members past and present have been responsible for creating many projects that have seen success at RIT, as well as in the public space.
